DETAILED ACTION

1. This is in response to the Applicant's arguments and amendments filed on April 10, 2006 in which claim 14 has been amended. Claims 15-18, 20, and 21 are currently pending.

Allowable Subject Matter

2. After a further search and thorough examination of the present application and in view of the applicant's arguments and amendments, claims 15-18, 20, and 21, renumbered as 1-6, are found to be in condition of allowance.

3. The following is an examiner's statement of reasons for allowance: the cited prior arts teach a secure garbage collection system is provided which includes a microprocessor, and addressable storage, having a heap and a secure garbage collection software; when the secure garbage collection software module has detected that objects in the heap are unreachable, it securely, it securely reclaims the memory they were using by calling the wipe function.

On the other hand, the applicant teaches a memory cleaner module operable on the microprocessor for maintaining a list of registered applications selected from the software applications; the registered applications being responsive to the memory cleaner module for unreferencing at least some of the objects in the heap memory used thereby upon receiving the notification from the memory cleaner module, and the registered applications are each configured for advising the memory cleaner module if any objects have been unreferenced thereby based on the notification, and the memory

cleaner module is configured for causing the garbage collector module to clean unreferenced objects in the heap memory upon being advised by one or more of the registered applications that objects have been unreferenced thereby based on the notification. These limitations, in conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
